Apply to: ICT Developer

I am pleased to find your job description for Web Developer position on Indeed. I feel that it is direct match with my qualifications, experience and also my interests.

I will complete my study for Bachelor Degree in Software Development at AUT in June 2018. I have 3 months experience(11/2017-2/2018) working as an Internship Front end developer at Zigvy Corporation in Vietnam My responsibility is using ReactJS and Redux to design a responsive website based on Sketch design. In addition to, I also have 1 year experience working at Flaties Ltd to build the flatmate-wanted website (flaties.co.nz) by using NodeJS,ExpressJS and Mongoose. I have been taking many courses related to MERN stack on Udemy and based on what I have learnt from online tutorials, I have built several websites by using NodeJS,ReactJS,Mongoose,ExpressJS whenever I have free time because I always think that there is always room for improvement and especially with coding, the more you practice, the better you get. That is how I have been trying to pushed my self so far.

Please consider the enclosed resume to know more about my background, skills and projects which I have built and deployed so far. I look forward to have an opportunity of discussing my application with you further and how I can significantly contribute to the ongoing of your company.

Yours sincerely,
Raymond Nguyen
